I look into your eyes as you look into mine  
I see you smile and look away  
I sense a passion burning deep within your heart  
Can this be real? I look away  
And then I wander through the maze of my emotions  
Looking for the answer to the question in my mind  
Another dream has come and gone  
I watch it fade away  
And now I wander through the maze of my emotions  
Looking for the answer and waiting for a sign  
Tell me now - you lead, I'll follow  
Will I be with you tomorrow night?  
I look into your eyes as you look into mine  
I see you smile and turn away  
And now I tremble in the midst of my emotions  
You are the question and the answer to my dreams  
Tell me now - you lead, I'll follow  
Will I be with you tomorrow night?  
Tell me now - you lead, I'll follow  
Will I be with you tomorrow?  
Will I be with you tomorrow night?  
I look into your eyes as you look into mine  
I see you smile and come my way  
Tell me now - you lead, I'll follow  
Will I be with you tomorrow?  
Tell me now --- you lead, I'll follow  
Will I be with you tomorrow?  
Will I be with you tomorrow night?  
I see you smile:
