

## Heir Apparant "We, The People"

Visit "[We, The People](#)" on [MotoLyrics.com](https://MotoLyrics.com)

We, the people  
Face the challenge of our lives  
Apparent heirs of this domain  
The time is short for us  
To set a new priority  
Or we will surely pay the price - of the world  
- Your world  
- My world  
- Our world  
In the name of progress  
We take more than we need  
Respect for life exchanged  
For corporate greed  
Chemical waste destroys  
Our land and sea  
With no regard for the future  
Of our world  
We, the people  
Face the challenge of our lives  
Apparent heirs of this domain  
We, the people shape our destiny  
And the time is now to take care - of the world  
- Your world  
- My world  
- Our world  
We must unite -to survive!
