Can you taste
What I can feel
When I fall in pieces
And I can't free
What I'm living
Inside a box of emotions?

It's like an intense emergency
Like a fluid is becoming erosive
And you need to know
How I perceive my world around

You wrap me up with your lies
On my skin slides your face
There's not cure for me
There's not antidote

You'll never stop me
'Cause inside
You think I'm blowing my life
Just like an anti-law gun
I'll get my future!
Don't you stop me now
I am a dangerous soul
I'll sell my DGTal blood to get my future!

Now You taste
What I can feel
When I fall in pieces
Inside of me?
Broken up
In my locked box of illutions

Try to find a new confine, a new way to fight
Electricity's the only way to survive
And you need to know
What I'm dreaming beyond my eyes
But I can't believe that
You wrap me up with your lies
But on my skin slides your face
There's not cure for me

There's not antidote

You'll never stop me
'Cause inside
You think I'm blowing my life
Just like an anti-law gun
I'll get my future!
Don't you stop me now
I am a dangerous soul
I'll sell my DGTal blood to get my future on!

I'll never take my control...

There's not cure for me
There's not antidote

You'll never stop me
'Cause inside
You think I'm blowing my life
Just like an anti-law gun
I'll get my future!
Don't you stop me now
I am a dangerous soul
I'll sell my DGTal blood to get my future on!
