Look to the future
Forget the past
The future's golden

Hey be glad you came this way
Oh that's all you need to know
Make sure you count your blessings
One by one
As they come

Heart full of hope
Eyes full of visions
We look into
We look into
The sea of possibilities

Though it's hard to believe
The future is all we conceive
Now it's time to achieve
The future
Of our dreams

Go on
Dive
Into the future
Follow
The path ahead
Come on
Dive
Into the future
Follow
The path ahead
The path ahead

I'm ready for the game
It's time to call my name
Life will never be the same
I'm ready to shine
Like a star
