I've got a high class daddy, he wants to love me with  
his soul  
I've got a high class daddy, he wants to love me with  
his soul  
He calls it intellectual romance, but I call it just plain  
jelly roll

Now there's love that's in the heart, and there's love  
that's in the head  
Yes there's love that's in the heart, and there's love  
that's in the head  
One gives you action, and the other gives you words  
instead

Mmm, emotion devotion, they don't mean a thing you  
see  
Emotion devotion, they don't mean a thing you see  
As long as there's some motion, Lord that's good  
enough for me

Say your mind is fine, and your body's mellow as can  
be  
Baby your mind is fine, and your body's mellow as can  
be  
So I'll keep my mind on you if you'll keep your mind on  
me
