They raided the joint, took everybody down but me  
Yes they raided the joint, took everybody down but me  
I was over in the corner just as high as I could be

Now some were playing blackjack, some were playing  
skin  
I had plenty money but they wouldn't let me in  
Yes they raided the joint, took everybody down but me  
I was over in the corner just as high as I could be

They treated me like a stranger, like a dirty dog  
Ate up all the chops, gave me the tail of the hog  
Then they raided the joint, took everybody down but  
me  
I was over in the corner just as high as I could be

Now they were drinking gin, drinking mighty fast  
They offered me some King Kong [?], but I couldn't  
find a glass  
They raided the joint, took everybody down but me  
I was over in the corner just as high as I could be

Now some were drinking whiskey, some were drinking  
rhum  
They had some sneaky peep but they wouldn't give me  
none  
Yes they raided the joint, took everybody down but me  
I was over in the corner, knocked out as I could be

Now gee it sure was funny, the best I ever saw  
They heard somebody knocking and in walked the law  
They raided the joint, took everybody down but me  
I was over in the corner just as high as I could be

Now they were dancing in the kitchen, boogin' in the  
hall  
Boy down the cordon tell the judge about it all  
They raided the joint, took everybody down but me  
I was over in the corner, high as I could be
