[Intro #3]

The Christian concept of God - God as God of the sick,  
God as spider, God as  
spirit - is one of the most corrupt conceptions of god  
arrived at on this  
earth: perhaps it even represents the low-water mark in  
the descending  
development of the god type. God degenerated to the  
contadiction of life,  
insetad of being the transfiguration and eternal Yes! In  
God a declaration of  
hostility towards life, nature, the will to life! God the  
formula for every  
calumny of 'this world', for every lie about 'the next  
world'! In God  
nothingness defied, the will to nothingness  
sanctified!...

Infernal flames soothe my condemned soul, as torture  
becomes lust  
Burning flesh becomes a painful pleasure in the bowels  
of the abyss

Blessed by damnation, blessed by damnation

Screams of anguish turn into bliss, while skin is being  
scorched  
The fires blazing throughout this barren land brings  
forth enless ecstasy

Burn, I shall burn, as Hell consumes my soul  
Burn, forever burn, darkness has full control

Boiling blood and disfigured bodies are found within  
this place  
Before Satan, I have given all to become part of his  
creation

Blessed by damnation, blessed by damnation
