You shot me through the heart staring in your eyes
So I might die a happy man today
Just empty out your barrel girl
It's alright
Click clack away
Click clack away
Click clack away

Click clack away

Go 'head pull it pull it pull it
Yeah yeah
Pull it pull it pull it
Yeah yeah
Pull it pull it
Go ahead make my day
Click clack away

You got weapons of mass seduction
If I was broke i'd give you half of nothing
Or give it all then I give you more
I'm no decorator but the writing's on the wall
Winter, Summer, Fall, April, May and June
You shot me through the heart but I don't have a wound
You got a good aim cause I could've sworn I moved
When it comes to relationships I don't have a clue

Love at first sight I don't know I zoom
You put a hit on me ba da bing ba da boom
If this is pain hurry up and let me suffer
What doesn't kill me should make my love tougher
I'm tough now, whassup now
Fire at me I swear I won't duck down
Wow you had me in awe
You ain't have to shoot girl you had me from your jaw

You shot me through the heart staring in your eyes
So I might die a happy man today
Just empty out your barrel girl
It's alright
Click clack away
Click clack away

Click clack away
Click clack away

Go 'head pull it pull it pull it
Yeah yeah
Pull it pull it pull it
Yeah yeah
Pull it pull it
Go ahead make my day
Click clack away

You take away my very breath

No need to ask if i'm ready, yes
I go get my tux and you go get your dress
And we gon' do it big although we just met
I was just being fresh yeah I know i'm a mess
But I like spontaneity, continuity
Let it flow let it flow... with me
And i'm not pressing charges
Don't want you to ricochet and hit another target
You take me to the edge, right up to the margin

All I see is fireworks I can feel it sparking
Hope you keep me at the centre of your bullseye
And you know it's more benefits or full time
You are everything and more
You ain't have to shoot girl you had me from your jaw

You shot me through the heart staring in your eyes
So I might die a happy man today
Just empty out your barrel girl

It's alright
Click clack away
Click clack away
Click clack away
Click clack away

Go 'head pull it pull it pull it
Yeah yeah
Pull it pull it pull it

Yeah yeah
Pull it pull it
Go ahead make my day
Click clack away
