I am the earth,  
it's not something that I know.  
I am the dirt,  
when to freeze and when to grow.  
I had my own birth,  
when to stay in and when to go.  
And I am your curse,  
it's not something that I know.

You came out of the sky like a feather from an angel. I  
was rubbing my eyes. I know I'm not so wise or half as  
able as your angel size.

Love as light as light as a lead dove (fly lightly)  
Love that fits like a wet glove (fly all night)

It feels like a slide show,  
it's not something that I know.  
It's more like a freak show,  
when to stay in and when to go.  
What makes the world go?  
When to freeze and when to grow.  
What do I know?  
It's not something that I know.

You came out of the sky like a feather from an angel. I  
was rubbing my eyes. I know I'm not so wise or half as  
able as your angel size.

Love as light as light as a lead dove (fly lightly)  
Love that fits like a wet glove (fly all night)
