

Hell Is For Heroes **"Get Low"**

Visit "[Get Low](#)" on MotoLyrics.com

get set go!

i step up from the edge
so i'd feel something new
welcome to the end
i pushed myself too far again
so i'd have nothing to hold on to
and i wont forget to remember
to light the fuse and glow
i'll drink this world for you
i gew low i get high
i take one step foreward

and i feel like its all brand new
broke my piece of mind

it grew and fed on itself
i made war with myself
the hate just stuck like glue
so this one's for renewal
so this one's for the road
a net of twisted choke

i get low i get high
touch the dust off this ready and go
i take one step forward
and i feel like its all brand new

i get low i get high
i get one step closer to you
and im all brand new

i can feel my senses burning x4
i get low i get high i get lost i get fired i get boned

i get kicked i get cracked i get wired i get killed i get
clean
i get soul i get wet i get caught

i get pushed over the edge
