I've been searching for a getaway
I've been searching for a getaway
A get out clause - a safe escape route
A get out clause - a safe escape route
If I could shape myself to fit the mould
If I could shape myself to fit the mould
I would break it just to pass through
I would break it just to pass through
He's the one to make us feel like
He's the one to make us feel like
We belong here on the inside
We belong here on the inside
After all it's entertainment
After all it's entertainment
You will get just what you paid for
You will get just what you paid for
Open doors that I can walk through
Open doors that I can walk through
Open eyes that I can see through
Open eyes that I can see through
Give me skin so I can touch you
Give me skin so I can touch you
Give me space so I can break thought
Give me space so I can break through
I'll suffer

I'll suffer with you my friend
I'll suffer
I'll suffer
I'll suffer with you my friend
I'll suffer until the end
I'll suffer
I'll suffer until the end
