Save me one time, wont you
Take this blackened heart and make it whole
I don't fear for what I am
Is the fall of man

Life breeds death and disease
Empathy out of reach
We all wash with rain of blood skies
Pervert words that we read
Blind men die for beliefs
Fallback in the pit of tangled masses

Save me one time wont you
Take this blackened heart and make it whole
I don't fear for what I am
Is the fall of man

Swen land of the free
Live in the shit you bathe yourself
God of your world
This piss stained mortuary hole
Just look around
We are the sheep left shepherd-less
True and perverse
We are the teeming maggots

We are the collective scar across the face of existence
itself

We are the murderer, the rapist, the plague
Consumed by hatred and loathing

Life breeds death and disease
Empathy out of reach
We all wash with rain of blood skies

Time soils our will
It breaks us down with every war
Child fucking priest
Religious zealots fuel the whore
The common man bleeds
Into the through of those made rich

The pure and the sick
Kneel side by side as seconds tick

Dead God (cant you save us)
Doesn't lift a finger for us now (the blood is on our
hands)

No more time
No more reason
No more lies
It's time we burn

Save me one time, wont you
Take this blackened heart and make it whole
I don't fear for what I am
Is the fall of man
