Electric eyes keep track of what I'm doing  
Extensive index files knows my way  
Before I'm movin'  
And get the picture developed  
Before it's taken

I'm disillusioned but they sure  
Know my way 'round  
They cast no shadow  
Don't make a sound  
They're ahead of time  
It blows my mind  
I'm tied up and it gets me down

I say cold hard facts - you say paranoia  
You don't have to react - they got device  
To do for 'ya  
They know the rhythm before it's  
Set in motion

I wanna talk to you  
But I know we ain't talkin' alone  
Feels like someone else  
Is on the phone  
Top secrecy  
Is blowin' me  
I'm tied up and it gets me down
