I've been lost but I know who to turn to
At any cost even if it means I'm gonna burn too
There ain't no reason for me to be left out
Listen to me son there are things that I can do without
I've gone astray I've been waitin' for this day to come
Gone away already out there baby too far gone
There ain't no reason for me to be left out
You better listen up now honey to what I'm gonna blast
out

I've gone psyched out & furious
I'm comin' right on thru' I've gone psyched out &
furious

I'm on the road and the flames are getting higher now
Carryin' a load so heavy it got me wired now
I'm on a chicken race with Satan got a feelin' that I'm
gonna win
Be my backseat driver I'm takin' over seven deadly sins
