Bad news for you  
Because I'm after you  
And behind you (and around you)  
And all this time I've been one step ahead of you  
You've never had a clue  
What I could do to you  
Now the time has come for you to pay your dues  
This ain't a movie set  
You're gonna lose your bet  
Bitch you are not even gonna make me sweat  
Next time your get inside  
Your living room  
All you're gonna hear is "boom"

And I'll make you bleed  
I wanna hear you scream  
Tonight  
Until we see the morning lights

Bad news for you  
Why would I join you,  
When I can beat you?  
You tryna make a move and Ima slaughter you  
You better lock the door  
You did start this war  
When I'm done with you you're gonna hug the floor  
Medical report  
You will need support  
I really wanna see you when your lip is split  
If you're still talking shit  
Throwing another fit  
D'you really think that you can you take my hit?  
Bitch!

And I'll make you bleed  
I wanna hear you scream  
Tonight  
Until we see the morning light

You're going down  
Going down, going down

You're going down  
Going down, going down

You won't be the same  
You'll just be a  
Distant light and you'll watch me walk away

You'll remember my name  
The one you betrayed  
When I'll walk through the  
Neon lights of L.A.

You won't be the same  
You'll just be a  
Distant light and you'll watch me walk away
