Did you hear my voice calling your name?
I didn't know you that you changed the rules of the
game
All that's left of you is a rope of hair
All that's left in life is not enough to care
When you're left alone and all you feel is pain
You can use the fire to burn it away

I remember your face under the sun
When you want someone dead you should use a gun
What was once warm now is turned into ice
What killed me once can't kill me twice
And you can hear her voice, you can hear the sound
But no love is lost if no love was found
When you're left alone and all you feel is pain
You can use the fire to burn it away

Did you hear my heart breaking?
When you left, when you lied to me?
Did you hear my heart givin' in?
When you lied, when you lied to me

Don't turn around
We missed our dawn
Don't turn around I don't want you to see
What the world has become for me

Don't turn around
Baby, we missed our dawn
Don't turn around I don't want you to see
What the world has become for me
