Yeah I saw that review
And here's my reply
Guess what is "fuck you too"
You're gonna get a black eye

So if I give you some change
You'll write something good
I think we can arrange
But I'm still too loud for you

Too loud, too loud, too loud

So you think you can knock me down
Talk a lot of shit is all that you do
Better watch out 'cause I don't fuck around
I'm always gonna be too loud for you

I've got no competition
There ain't nobody out there
Now take a look at my crowd
It's gonna get loud!

Too loud, too loud, too loud

So you think you can knock me down
Talk a lot of shit is all that you do
Better watch out 'cause I don't fuck around
I'm always gonna be too loud for you

Go!

What happened to,
What happened to "We're gonna be together, baby
please don't let me go"
What happened to "wherever you go I'm gonna go with
you"
Nothing left to lose, nowhere to go
All hope is gone
And I won't let you win, I'll never lose control
You won't have me crawl
You'll always break yourself against my wall
