"Midnight Lady"

Visit "[Midnight Lady](#)" on MotoLyrics.com

sitting down on my bed
wondering through my mind
night has come I'm wide awake
another sleepless night
I wanna know the truth
shy I got left behind
why my life has turned into
a never ending story

I know she comes tonight
she fullfills her bow
My own fairytale is unknown to mankind
the lady knows my secret and helps me through the
night

midnight lady
she makes me high, I feel alive
midnight lady
saving me tonight

I shed a tear, I'm so alone
sadness fills my days
wonder if I ever find out
the reason wht they lied
I'm so sick and tired of their madeup stories
tell me now, the time is short
soon I close my eyes

I know she comes tonight
she fullfills her bow
My own fairytale is unknown to mankind
the lady knows my secret and helps me through the
night

midnight lady
she makes me high, I feel alive
midnight lady
saving me tonight

morning comes, I'm still awake
I got to get some rest

astral queen, where are you now
where are you when I need you
you got to help me now
I need you advise
gonna take the easy way
out of my misery

I know she comes tonight
she fullfills her bow
My own fairytale is unknown to mankind
the lady knows my secret and helps me through the
night

midnight lady
she makes me high, I feel alive
midnight lady
saving me tonight
