What can you do when the reasons  
All seem to point in your face  
The others lay sleeping and quiet  
Unaware of the plans I had made  
Sometimes you just can't remember  
What happened the evening before  
You turn to an absolute stranger  
You know that you've known him before

Can you see it clear?  
Hiding, standing near  
Attack

One morning at dawn I awakened  
The doctor he stood by the door  
The hospital's where I was taken  
'Till I could stand it no more

Can you see it clear?  
Hiding, standing near  
Attack  
Attack

Can you feel it?  
He's there, waiting just to take you down  
You'd best believe it  
He's there, waiting just to spin you around

[Solo: Alan Barlam]

What can you do when the reasons  
All seem to point in your face  
The others lay sleeping and quiet  
Unaware of the plans I had made  
Sometime I just can't remember  
What happened the evening before  
You turn to an absolute stranger  
You know that you've seen him before

Can you see it clear?  
Hiding, standing near  
Attack
