"Hear You Sing"

We'll sing this loud in a quiet place and
We will ignore every single word they say
We'll start our own revolution
Come on, come on, get down
And let me hear you sing

Let me hear you sing
Let me hear you sing

Friday night and I feel alive
Gonna get up, get up
Get down tonight
Cause I I just wanna grab the keys and drive

So here we go...

We'll sing this loud in a quiet place and
We will ignore every single word they say
We'll start our own revolution
Come on, come on, get down
And let me hear you sing

Champagne we're poppin'
No sign of stoppin'
Boys and girls la-la-la-ladies and gentlemen
Looks like we just might have the time of our lives

So here we go...
Here we go

We'll sing this loud in a quiet place and
We will ignore every single word they say
We'll start our own revolution
Come on, come on, get down
And let me hear you sing
Let me hear you sing

So raise your glasses one last time
Before the sun comes up
This is your last call last chance
(Last call last chance)

We'll sing this loud in a quiet place and
We will ignore every single word they say
We'll start our own revolution
Come on, come on, get down
And let me hear you sing

We'll sing this loud in a quiet place and
We will ignore every single word they say
We'll start our own revolution
Come on, come on, get down
And let me hear you sing
