Long ago the story starts  
You knew it all too well  
Trust the fools with secrets  
And the world is theirs to tell  
You've got one thing left to do  
You'd better do it right  
Take a breath, prepare yourself  
Get ready for a fight

To put the hammer down  
You put the hammer down  
You put the hammer down, down

Sick and tired of being told  
Exactly what to do  
I've had enough of hearing lies  
They're coming all from you  
You've got one thing left to do  
You'd better do it right  
Take a breath, prepare yourself  
Get ready for a fight, fight

To put the hammer down  
You put the hammer down  
You put the hammer down, down

You've got to, got to, got to put it down

Best keep your eyes open  
Someone's coming from behind  
Even creeping shadows  
Weigh heavy on your mind  
You've got one thing left to do  
You'd better do it right  
Take a breath, prepare yourself  
Get ready for a fight

To put the hammer down  
You put the hammer down  
You put the hammer down  
You put the hammer down  
Where you gonna put it?

Down  
Where you gonna put it?  
Down

Down
