Can't shake this feeling
It won't let go
We're heading into parts unknown

Whoa, spinning as we go
Whoa

Night sky above us
Stars all aglow
Illuminate the world below

Whoa, spinning as we go
Whoa

There's no need to take it slow
I've a feeling we could go all the way

Though the path is overgrown
We've got stars to guide us home
It's ok

Keep holding tightly
And don't let go
As we head into parts unknown

Whoa, spinning as we go
Whoa, whoa, spinning as we go
Whoa, whoa, spinning as we go
Whoa, spinning as we go
