

## **Brutal Truth**

### **"Afterworld"**

Visit "[Afterworld](#)" on MotoLyrics.com

Praise religions  
Smash divisions  
Corporate systems, cybernation  
Clear visions -- through cybernation

Praise the light  
Progress

Swing the axe of progress  
While breaking down the formula  
Chemically based future  
A dead world obliteration

A push for global warming, a self-analysis and our  
System has manufactured its economy based on  
Principles of annihilation... a world of technological  
Advances without repercussion bring on the demise of  
Civilization... reap the benefits of our future based in  
Chemical destruction. a world of misery... taste our  
Misery, bring on annihilation
