Still not loud enough
Still not fast enough

Front, front life
Front, front life
Front, front life
Front, front life

Life, life in sedation
No mental addictions
Frustrated mind tangled in lies
Progress dementia

Follow your instincts let others be
Guide your own life through reality
Perceive depictions why can't you see
Blind to real life, can't see

Fueling the real life, fueling the mind
Fueling the real life, blind to real life
Fueling the real life, death's futile misery
Fueling the industry through
Death's futile misery, progress dementia

Follow your instincts let others be
Guide your own life through reality
Perceive depictions why can't you see
Blind to real life, can't see

Follow your instincts let others be
Guide your own life through reality

For what you see is your life
What to be is no life
For what you see is your life
What to be is no life

Do follow your instinct

Life in sedation
No mental addictions
Frustrated mind tangled in lies

Progress dementia

Own life
