"Eco-friendly Discharge"

Cleaning and sweeping, ever erasing my past
malfunctions.
Im bored with the lot, its boring in plots, of all our
pollutions.
Kissing the beauty of better living, chemical solutions.

Hold me tight and feel my eco-friendly discharge.
Balancing your life - finish your life
Balancing your life - finish your life eco-friendly
discharge.

Dissecting the past sands in a glass, time wastes
dilutions.
Forgotten lessons of self destruction annihilated
condition.
Sucking the heart from a green star, lust and embrace
oblivion.

Hold me tight and feel my eco-friendly discharge
Balancing your life - finish your life
Balancing your life - finish your life eco-friendly
discharge.
