Policy of war want more  
Callous in your thinking need belief in  
What you'd like to find a little piece of mind  
But you only find the clandestine  
Do as they say - stop thinking  
Ask why - they lie  
Straight line - cross ties  
Genocide - life crime  
Bark or bite with no reason why  
Future crimes mankind  
Graze the sheep are all rolling by  
Man and slaughter - we're all fine ...just fine  
With their thoughts, your life  
Their grip, feel life slip  
All bark, no bite  
Feel insane, that's normal  
No one likes this order  
Time to ride let's ride  
All this bark all of this might... is it worth the fight  
Change is hard for one, imagine global one  
All this pain and suffering just go away  
If we stopped to think - think
