### "Global Good Guy"

Hell fire, feel my blood begin to boil  
Dark religion, a doctorate charade  
Preach your politics of global good guy  
Watch our world catch cold and die

Watching it die  
Trained monkeys  
Grinding their pockets for crime  
Lessons -- preach choirs and gospels reign down  
Slipping -- the morals and crimes that you paint

Hell fire, feel my blood begin to boil  
Preach your politics of global good guy  
Fuck you

Poor vision previsions of booty  
Good guys in black attack  
The symptoms, the sweating, the sneezing

Trained monkeys  
Grinding their pockets for crime  
Lessons -- preach choirs and gospels reign down  
Slipping -- the morals and crimes that you paint  
Forgiving -- the gospel of choirs ring out

The gospel of bullshit and lies...
