Oh dear I think I made you mad,  
but I can't live with my mistake.  
And I didn't mean to make your heart break.  
The railway crossings are behind,  
and I'm looking forward but I'm blind.  
And the hill before me is too tall for me to climb.

Shift my paradise.  
I'm not even eating onions and I'm crying, dying.  
I'm already scared.  
I think I can, I think I should. I never thought I could.  
There comes a time in all our lives  
when you have to make it good.  
So come on ride this train  
cause we're gonna to make it after all.  
I think I can, I think I can.

Oh dear I'm trying really hard,  
but I'm not getting very far.  
Old habits run under my skin.  
You can't teach this young dog your new tricks.  
And your downhill railways are my goal  
and this fabrics getting really old.  
And it's time to kick into high gear.  
That's it we're getting out of here.

Shift my paradise.  
I'm not even eating onions and I'm crying, dying.  
I'm already scared.  
I think I can, I think I should. I never thought I could.  
There comes a time in all our lives  
when you have to make it good.  
So come on ride this train  
cause we're gonna to make it after all.  
I think I can, I think I can.

One, two, three do the locomotion with me. Wa oh wa  
uh uh oh.  
One, two, three do the locomotion with me. Wa oh wa  
uh uh oh.

I think, I can, I think I should. I never thought I could.  
There comes a time in all our lives  
when you have to make it good.  
So come on ride this train  
cause we're going to make it after all.  
I think I can, I think I can. I think, I can, I think I should.  
Its time to make it good.  
So come on ride this train  
cause we're gonna to make it after all.  
I think I can, I think I can.
