My life's a bomb, and held in your hands  
It's time for me to go  
Throw me in the water, and I'll explode  
I'll become the water to sink their boat  
I know, it's time its time, it's time it's time, it's for  
me to go

And we are, everything we used to be  
Now here and I am, everything we used to know  
Dead I am right ahead, now up  
In the sky we float like (can you see me now, up in the  
clouds?)

Angels now, so beautiful, just don't look down.  
Angels now, so beautiful, just don't look down.  
Angels now, so beautiful, just don't look down.  
Angels now, so beautiful, (in the sky in the sky), just  
don't look down.

My life's a bomb.  
My life's a bomb.
