Looking at old photos of Grandma's Grandma,
Making a quick look-in after the kids.
Hating school, I made my teacher in shop cry
I am far too restless
Kids are cute as long as they're not mine
Wait up

I was definitely made for these times
I can make the meanest daiquiri
I can quote all of high fidelity
I was definitely made for these times
Would have gotten stoned or ridiculed
Maimed or trampled
Or died from poor nutrition
Wait up
Up-up-up-up-up

There have been times I thought it might be good
though
If Mum and Dad could have chosen a man for me
Someone from the neighborhood with well-bred
charms
Guess I'd still have thrown myself in the arms of you
Wait up-up
Up-up-up-up-up

I was definitely made for these times
A woman should obey her man
Sure - when he can do the things I can
I was definitely made for these times
Going in to Church on Sundays, ruining my TV fun day-
ay

Wait up-up

I'll be holding you when you cry
I'll be holding you when you cry
I won't commit to you but I'll hold you when you cry
(I'll be holding you when you cry)

I won't commit to you but I'll hold you when you cry
(I'll be holding you when you cry)
I won't commit to you but I'll hold you when you cry
(I'll be holding you when you cry)
I won't commit to you but I'll hold you when you cry
(I'll be holding you when you cry)
I won't commit to you but I'll hold you when you cry
(I'll be holding you when you cry)
I won't commit to you but I'll hold you, hold you, hold
you when you cry
(I'll be holding you when you cry)

I was definitely made for these times
I can make the meanest daiquiri
I can quote all of high fidelity
I was definitely made for these times
Would have gotten stoned or ridiculed
