As the sunsets sunsets  
I be drive down Sunset sunset  
Shades down top back top back  
And it feels sooo incredible  
oooohoooooh  
When its a beautiful day in LA  
No other place I rather be(be)  
When my city keeps calling me(me)  
Let me show you how we roll

I will like to welcome you to my world yeah  
I got it back, its California love  
Then there in nothing you can do  
When the city of Angels grab you

And, you be up in the club  
Lookin the brain, with all them girls showin love  
Look its so hard to stay true  
When the angel form that city touch you

Chours:  
But its all right (its all right)  
Got a sit but your on ice  
You'll be addicted to the life  
In the city of Angels  
But its all right (its all right)  
Show me what ever you like  
And you'll be addicted to the life  
In the city of Angels

I'm in the sunshine(sunshine)  
Layin with Sunshine(Sunshine)  
Watch your step cause she will  
Blow your mind (blow your mind)  
Make you lose control  
Every other gril in the city is a ten  
And every other car that you see is your opinion  
And you ain't chicken if you got them mens  
In the city of Champions

I will like to welcome you to my world yeah  
I got it back, its California love

Then there in nothing you can do  
When the city of Angels grab you

Then, you be up in the club  
Lookin the brain, with all them girls showin love  
Look its so hard to stay true  
When the angel form that city touch you

Chorus

Music Break

I will like to welcome you to my world yeah  
I got it back, its California love  
Then there in nothing you can do  
When the city of Angels grab you

Then, you be up in the club  
Lookin the brain, with all them girls showin love  
Look its so hard to stay true  
When the angel form that city touch you

Chrous (Fade out)
