He's my brother and I love him like myself
(He's my brother and I love him like no one else)
He's my brother and I love like myself
Like brothers we stand apart
Knowing our destiny--yeah
We vow a simulation
Only sensanity-who
He's my brother and I love him like myself
(He's my brother and I love him with in soul)
He's my brother and I love him like myself
(He's my brother and I'll never let him go)
I need you, you need me
He's my brother and I love him like myself
