Yeah, whoa  
I dropped a tear in the ocean  
And when you find it  
That's the day I'll stop loving you, come on

If the time was slipping away  
And I didn't have long to live  
I appreciate the times we've shared  
And I wouldn't want you to shed a tear

If the road was coming to an end  
And I couldn't turn this car around  
I know faith will get us, get us through the wind  
And land our feet somewhere on heaven's ground

If I had only one day on this earth, whoa  
I'll live tonight, I'll spend tonight  
Make love tonight, I'll sleep tonight  
With you by my side

And if I had only one day on this earth, whoa  
Then I'll laugh tonight, I'll cry tonight  
I'll make it right, spend the rest of my time  
With you by my side

Now if this life gets the best of me  
And all the fame starts to fade away  
Just know our love made history  
And the next life is a better place

If they announced it on the television  
That the world was gonna end today, yeah  
Girl, I'd be on a mission  
To love you the rest of the night away if I had one

If I had only one day on this earth, yeah, whoa  
I'll live tonight, I'll spend tonight  
Make love tonight, I'll sleep tonight  
With you by my side

And if I have only one day on this earth, whoa  
Then I'll laugh tonight, I'll cry tonight

I'll make it right, spend the rest of my time  
With you by my side

We could see the sunrise  
We could see the stars glis'  
Make love in the moonlight  
I'll make you my bucket list

We gone shop like no tomorrow  
Live it up like no tomorrow  
Pop champagne like no tomorrow  
In the club like no tomorrow

You can have anything you like  
You're my girl, I'ma treat you right  
And when I shine, you shine  
So have fun you only get one life

And for all them hatin' humans  
Smile-in-your-face humans  
Behind your back  
They-wanna-take-your-place humans

We going live forever  
We going grind forever  
We going be together  
'Til forever and ever

If I had only one day on this earth, whoa  
I'll live tonight, I'll spend tonight  
Make love tonight, I'll sleep tonight  
With you by my side

And If I have only one day on this earth, whoa  
Then I'll laugh tonight, I'll cry tonight  
I'll make it right, spend the rest of my time  
With you by my side
