Baby girl I know you're used to, fellas saying they don't  
want you to use ya'  
They don't care about they future or if they lose ya'  
They only want one night with ya', you know I'm tryna  
keep it alright with ya'  
I want to be the one to ride with ya, I put it on my life  
babygirl it's true (Ooh)

(Other men try to compete but that really don't bother  
me, eventually you will see)  
That I got just what you need.  
Listen baby we can take it slow, I aint got no other place  
to go.  
Aint no other way I can break it down.

Girl I'ma be the one, be the one to hold you down.  
Even when my boys around, aint no need for number  
two now.  
Girl I'ma be the one, be the one that do you right.  
And I put it girl on my life.  
Anything to make you mine.  
Girl I'ma be the one.  
The one, the one, the one, yeah, yeah

If you need it you can have it.  
I been droppin' other girls, it could happen.  
Say the one and I'ma match it.  
Girl we could make it happen.  
I'm tryna spend some time with you.  
You know I'm tryna keep it alright with you.  
I want to be the one to ride with you.  
I put it on my life baby, that -

I'ma be the one, be the one to hold you down.  
Even when my boys around, aint no need for number  
two now.  
Girl I'ma be the one, be the one that do you right.  
And I put it girl on my life.  
Anything to make you mine.  
(Oh)

Let me be what you need girl, you know I'ma keep it true.

This is only for you girl, you know I'm here for you.

No more searching for love baby.

Cause I'm here and I'ma be the one.

(x2)

Girl I'ma be the one, be the one to hold you down.

Even when my boys around, aint no need for number two now.

Girl I'ma be the one, be the one that do you right.

And I put it girl on my life.

Anything to make you mine.

I'ma, I'ma be the one (repeat 'til fade)
