

Hellogoodbye "Baby, It's Fact"

Visit "[Baby, It's Fact](#)" on MotoLyrics.com

Just in case their wondering
They've got us pinned terribly
They don't believe our love is real
Cause they don't know how real love feels
You should know it's true
Just now, the part about my love for you
And how my hearts about to burst
Into a thousand pieces
Oh it must be true
And they'll believe us too soon
Baby, it's fact
Our love is true
The way black is black
And blue is just blue
My love is true
It's a matter of fact
Oh, and you love me too
It's as simple as that
Baby, our love is true

They may say some awful things
But there's no point in listening
Your words are the only words
That I believe in afterwards
You should know it's true
Just now, the part about my love for you
And how my hearts about bust
Into a thousand pieces
Oh it must be true
And They'll believe us to soon
Baby, it's fact
Our love is true
The way black is black
And blue is just blue
My love is true
It's a matter of fact
Oh, and you love me too
It's a simple as that
Baby, our love is true

It's true
Oh oh oh

It's true
Oh oh oh
It's true
Whoa oh oh

Baby, it's fact
Our love is true
The way black is black
And blue is just blue
My love is true
It's a matter of fact
Oh, and you love me too
It's a simple as that

Baby, it's fact
That our love is true
To wear black is black
And blue is just blue
My love is true
It's a matter of fact
Oh, and you love me too
It's a simple as that
Baby, it's fact
Our love is true
Baby, it's fact
Our love is true
Baby it's fact
(Baby it's fact)
Baby it's fact
Our love is true
