Alright

Out on the calculator TI 83

(will you go to home-coming with me)

I've got an idea for a special dance

you can wear a dress and i can wear some fancy pants

People crowd into a room its something you can see

(will you go to home-coming with me)

dancing with eachother, hands up to the ceiling

Dancing take away the pain, dancing is for healing

Will you go to home-coming with me

(will you go to home coming with me)

Step onto the dance floor or i will sting you like a bee

(will you go to home-coming with me)

Shake it to the left and shake it to the right

you will go with me and we will dance all F'in night

You will learn the plesure of dancing with jesse

(will you go to home-coming with me)

You will see my moves and think that they are a mirage

Jesse buy you flowers

Jesse buy corsage

will you go to home-coming with me

(will you go to home-coming with me)

will you go to home-coming with me

(will you go to home-coming with me)

Home-coming

will you go to home-coming with me

(will you go to home-coming with me)

we could go to home-coming you see

(will you go to home-coming with me)

will you go to home-coming with me x 9
