Every night i see you standing on the corner  
Shaking that thang like you're playing pop warner  
Touchdown turnaround play by play keep the score  
Would you turn me down if im not what you're looking  
for

I never knew you (don't give up on me)x3  
I never knew you threw so hard

Touchdown turnaround i never see you around  
Anywhere or anymore you are what im looking for  
Touchdown turnaround everything is safe and sound  
Everywhere and everytime i am yours and you are  
mine

Little league in '93 taught me how to take defeat  
Good thing there's no mercy rule in love cause i would  
long be beat  
Hit the ground lookaround but you're nowhere to be  
found  
Accept my loss and head back to the mound  
I never knew you (don't give up on me)(x3)  
I never knew you threw so hard

Touchdown turnaround i never see you around  
Anywhere or anymore you are what im looking for  
Touchdown turnaround everything is safe and sound  
Everywhere and everytime i am yours and you are  
mine

I never knew you (don't give up on me)x3  
I never knew you threw so hard

Touchdown turnaround i never see you around  
Anywhere or anymore you are what im looking for  
Touchdown turnaround everything is safe and sound  
Everywhere and everytime i am yours and you are  
mine(x2)
