(m&l - deris)

Come take a look up to the constelations  
Take the book of God you will find your relations  
If you understand you will know the solution  
Things will fall back to the new constitution

I'm a son of a distant future  
I'm the last of the seven troopers  
And I came here for the 7th war

I'm a child of the stars  
The blaster os the gods  
And I have seen it all before  
Before the war  
Cold- hearted earth  
I'm the master of the universe  
And I have seen it all before  
Before the war

Nature sets a limit to  
Your millenary  
Turning every place into  
A cruel mean scenary  
All will get a chance to shun  
The holy fire  
But you will be few getting  
Under the wire

I'm a son of a distant future  
I'm the last of the seven troopers  
And I came here for  
The 7th war

I'm a child of the stars  
The blaster os the gods  
And I have seen it all before  
Before the war  
Cold- hearted earth  
I'm the master of the universe  
And I have seen it all before  
Before the war

Mind the 7th war- mind the 7th war  
Yes I came here for the 7th war

I'm a child of the stars  
The blaster os the gods  
And I have seen it all before  
Before the war  
Cold- hearted earth  
I'm the master of the universe  
And I have seen it all before  
Before the war
