## "Far In The Future"

Visit "[Far In The Future](#)" on MotoLyrics.com

Can you hear, isolated  
Can you see, aberrated  
Can you sigh, I'm frustrated  
Make my day

Can you feel animation  
Shall I bring you salvation  
No, I hate this temptation  
Make my day

Pray, pray  
I'm afraid, afraid

Meet you somewhere  
Far in the future  
There I will wait for you  
Far in the future  
We're gonna make it through

I'll wait, wait  
I'll wait, I'll wait  
I'll wait, I'll wait  
I'll wait, I'll wait, I'll wait

Hear my voice  
I don't care what they're saying  
Feel my touch  
I think you're only sleeping

They say you're like blind  
They say you're like dead  
Still the day will come  
I may stop weeping

I play you heavy metal  
Soul, punk, dance to unsettle  
One sign please, one reaction  
Make my day

Pray, pray  
I'm afraid, afraid

Meet you somewhere  
Far in the future  
There I will wait for you  
Far in the future  
We're gonna make it through

I'll wait for you  
I'll wait for you  
I'll wait for you  
I'll wait for you

One of us is dying  
One's left behind  
Two of us are crying  
One loud and one in mind

When your heart stops beating  
I'll go your way  
When you yet start speaking  
You made my day, day, day  
Got to pray, pray, pray

Make my day, pray, pray  
I'm afraid, afraid

Meet you somewhere  
Far in the future  
There I will wait for you  
Far in the future  
We're gonna make it through

Far in the future  
There hides another life  
Far in the future  
We let it all revive

I'll wait, wait, wait
