(m&l - kiske)

Give me two strong arms to fight my enemies
Give me two strong eyes to see the truth
Give me two strong legs I think I have to run
And fill my heart with faith that I won't lose
I don't wanna lose

Give me one real love that I don't freeze out there
Make me feel your presence in the night
Give me one strong heart that tells me when I lie
And tha my soul so I won't have to hide
I don't wanna hide

It's so cold deep dpwn here
I know we had to fall
Souls are dying everywhere
But whatever I do

I believe, I believe

There'll be no reason to live
Without you giving me light
There is so much that you give
Your love is shining so bright

I believe, I believe

I wanna love but I always hate
I wanna give but I always take
Want you to laught but I make you cry
Maybe I won't change until I die

It's so much easier said than done
I know I can't just always run
Got so much anger inside of me
I understand but I think I see what I'm not

I know it's true what j.c. said
I got all clear in my head
Seems we were born to be unfair
I am a sinner that's starting to dare to believe

Give me your hand until the end
And I will walk into the promised land
I don't deserve anything you do
But I can't stop loving you

No more lies, no false religions
No more whys and wrong God missions
No shiny t.v priests begging for cash
No more wars that no god's ever asked for

There's a way back out of there
One day we're goin' home
Tell everyone who wants to hear:
Whatever you do:

Do believe, I believe
We believe, believe oh!
