Weikath)

Come hither to this place and left your minds fly free
For that's the only way how everyone should be
We all need something that we can keep on living for
No one needs to tell us what we're doing anymore

Chorus :

Head on, head on steady - until the end of time
Living, living ready - for living ain't no crime

So tell me, aren't we all just on holding the flame
Against all babbits in this world who build up frames
Sometime or tomorrow we will prove them traitors
wrong
So make your dreams come true for it musn't take
too long

Repeat chorus

Solo : both / Kai / Mike

Now what's the use of living here and what's it
worth
Don't ask but throw away your fear enjoy this earth
You are here to live don't think you're here to
understand
Don't forget you're no one without someone's
helping hand

Repeat chorus
