(Never again)
Never again
I told myself
I'll play with fire
(Never again)
Never again
I'll come too close
To this desire

My melted wings have just healed
When my faceted eyes are bound in fascination
Never say never say
Never again
Never again

Alright
It's my last flight
Must go on and on
Until I die
Tonight
Into the light
Must go on and on
One last sigh
Make fire catch the fly

(Never again)
Never again
But just tonight
I heed the calling
(This could be the end)
This could be the end
I won't regret then when I'm falling

My melted wings have just healed
When my faceted eyes are bound in fascination
Never say never say
Never again
Never again

Alright
It's my last flight

Must go on and on
Till I die
Tonight
Into the light
Must go on and on
One last sigh
Make fire catch the fly

Fire fire fire...

Alright
It's my last flight
Must go on and on
Till I die
Tonight
Into the light
Must go on and on
One last sigh
Make fire catch the fly

Make fire catch the fly...
