Take me down  
To a ground  
Just let me feel it  
If I let someone down  
Please welcome  
Him on the losing side

I shake you of  
And make my choice  
Don't wanna hear you  
Your smiling voice  
Please go down, please  
I don't wanna feel you around me

Take me down to a higher ground  
To survive your mindless sound  
If you know all the people  
Why are you alone?  
If you know all the people  
You'll be goin'down

I feel that man  
On my back  
Don't promise any crap  
Someone will break your neck  
You don't know how  
To soak my soul

Let me out, let me go  
Open your eyes  
You told nothing but lies  
Please go down, please  
C'mon, go down with your ego

Take me down to a higher ground  
To survive your mindless sound  
If you know all the people  
Why are you alone?  
If you know all the people  
You'll be goin'down  
Let me go ahead, let me go

I will find an explanation  
Where's my owly destination  
Separed ways now and forever  
Is the on and owly measure

Tales full of exaggerations  
No more manipulations  
And I think you are not funny  
Your brain is just a bloatd dummy

Take me down to a higher ground  
To survive your mindless sound  
If you know all the people  
Why are you alone?  
If you know all the people  
You'll be goin'down
