Way back in time was a nation sublime
For they had what it takes
To leads a good life
Foemen believed
It's because of some secrets
They brought the fight
And it never ended

Hush, don't cry
Deep in the night come the raiders
Shiver and pray
Petra will fall to the Great

Oh, Nabataea
You came so far
Now gone you are
Oh, Nabataea
You morning star
Now so afar
Nabataea

People desire and people admire
Some always try to reign with fire
So are the seals
Hence the old Nabataeans
Have disappeared under the wire

Hush, don't cry
Deep in the night come the raiders
Shiver and pray
Petra will fall to the Great

Oh, Nabataea
You came so far
Now gone you are
Oh, Nabataea
You morning star
Now so afar
Nabataea

Petra, your were a shining star
Unique in your time

Petra, 2,000 years on
We still suffer the same crimes
Petra, today we're trying hard
To reach your paradigm

We say no
To the ultra-extreme
No
We say no
To the killers of dreams
No
No

Children, children, have no fear
Soon we all well desappear
Children, children, don't you cry
Make no sound or we will die

Children, children, have no fear
Soon we all well desappear
Children, children, don't you cry
Make no sound or we will die!

Once there was a land midst of the chaos
Floating like an island in old blood
People lived in peace
There was no hunger
Though they had no slaves
Believe it or not

Once there was a nation without soldiers
Never brought a war to other lands
They lived without king or queen or ruler
Once there was the first democracy

Oh, Nabataea
You came so far
Now gone you are
Oh, Nabataea
You morning star
Now so afar

Ooh, Nabataea
Oh, Nabataea
