(Roland Grapow)

Time has come

Start your search for tomorrow

No escape

From that song trail of sorrow

You don't no how it keeps goin' on, oh no

Wake up out of misty dreams

Evil drug is starting to grab you, to grab you

Step out of hell Demons dancing Round your brain

Step out of hell Streams of madness flow through
your veins

Step out of hell Go on like this you're gonna be
dead

Step out of hell Take my hand I wanna help (but can
I ?)

You did your best

To keep yourself down

Give it a rest

And just turn around !

It's only a one-way street of lies, yes it is !

Living in a twilight zone

Get away out of that drug jungle, that drug jungle

Step out of hell Demons dancing Round your brain

Step out of hell Streams of madness flow through
your veins

Step out of hell Go on like this you're gonna be
dead

Step out of hell Take my hand I wanna help (but can
I ?)

Another line, have a good time, you don't mind

To turn your brain inside out

To serve the final rite

Step out of hell Demons dancing Round your brain

Step out of hell Streams of madness flow through
your veins

Step out of hell Go on like this you're gonna be
dead

Step out of hell Take my hand I wanna help (but can
I ?)
