(m - grapow, l - deris)

In a circle of fire  
On a cold winter night  
I spoke out my desire  
Made a promise  
I couldn't hide, no!

In a dream  
He came along and told me  
"your time has come  
Your mind belongs to me"

It's the time of the oath  
The time of the oath  
My sweetest memories  
Die in the cold  
It's the time of the oath

See me covered  
With sadness  
And I'll soon wish to die  
When the overcoming madness  
Is eating up my mind

Here and now  
I look back at a good time  
No more lie  
I slowly say god- bye

It's the time of the oath  
The time of the oath  
My sweetest memories  
Die in the cold  
It's the time of the oath
