Blood on my pillow
Blood on my skin
Am I going mad
Or was this a dream?

There in the depth
The hollow souls wait
Voices surround me
Tempting my fate

Then out of nowhere
Figures in white
Guarding my soul in the fight

We are strong, we're alive
We have faith in his might
We believe in the everlasting light

Anytime, anywhere
We will always be there
We will fight for what's just
And what's right
We damn the night

Out in the blackness
Shivering cold
Doubt takes on shape
Fear the unknown

Eyes of the fallen
Piercing their glance
Whispers of doom
Left without chance

Then out of nowhere
Figures in white
Shielding my soul in the fight

We are strong, we're alive
We have faith in his might
We believe in the everlasting light

Anytime, anywhere
We will always be there
We will fight for what's just
And what's right
We damn the night

We are strong, we're alive
We have faith in his might
We believe in the everlasting light

Anytime, anywhere
We will always be there
We will fight for what's just
And what's right
We damn the night
We damn the night
We damn the night
