Warfare - the only solution for your stupid problems

Soldiers - marching out for your revolution

Killing and burning, destroying, overturning

You got the license to hate

All the others are cowards

You believe they got no power

stealing what they own

Making all the money with your big guns

Ripping out their heart for a drop of oil

World of war

We know it all is not the grand solution

World of of peace

Would give us all an enlightened constitution

Task Force - dirty soul of an american institution

Cold War - military build-up made money for your crown

Killing and burning, destroying, overturning

You lead people into fate

Grab your M-16

Like a war machine

Just make it all yourself

Mothers crying over losing their sons

Ripping out their heart for worthless gold

World of war

We know it all is not the grand solution

World of of peace

Would give us all an enlightened constitution

Persecution, dissolution, execution NO!

World of war

We know it all is not the grand solution

World of of peace
Would give us all an enlightened constitution
World of war
We know it all is not the grand solution
