Sitting in jail so many years
Chains on my hands don't let me moving
Sun can not get through the walls
Watchdog is here
Watchdog is there
Watching every step
You're making
X-raying your body and soul

I want to be free
And I want to break loose

How can I get out of here
Chances are lost
No rays of hope
There is no narrow escape
It makes me sweat
It makes me bleed
Makes me really feel so low
I gotta run run away

Who'll take me gway from here
Hey someone just save me please
