of elements unknown to thee  
consumation, initial plea  
burning within, burning out with  
highest degree, death your gift

strainging heat, critical mass  
painless life now is your past  
internal cremation, organic ignition  
disintegration, chronic submission

pyrophoric seizure  
existence burning within  
pyrophoric lesions  
to ashes your soul commits

befalling fusion, begetting fission  
molecular mines, cellular revision

organic host, harnessed prey  
fleeting consciousness, soul betrayed

what shall circumvent spirit's plea  
a final cry, the way is set  
all have gone, arisen to the past  
transgressive sentience, steps of death

of elements unknown to thee  
consumation, initial plea  
burning within, burning out with  
highest degree, death your gift

pyrophoric seizure  
existence burning within  
to ashes your soul commits
